New Model Lineup

We are pleased to announce you of new model lineup as follows.

Compact AC Source PCR-MA Series

■ Outline

The PCR-MA Series is a compact AC source, that is the enhanced model of our existing PCR-M Series.

Category	Series	Model	Description
AC Source	PCR-MA	PCR500MA	500VA, AC1~310V
		PCR1000MA	1000VA, AC1~310V
		PCR2000MA	2000VA, AC1~310V
		PCR4000MA	4000VA, AC1~310V

■ Features

- Expanded output voltage to 310Vrms from 270Vrms of existing PCR-M Series
- Sensing function equipped
- Easy Web browser control
- LAN(LXI), USB interfaces as standard interface (*RS232C interface will be available as the option)
- The dimensions, the weight and the price shall be same as that of PCR-M Series.

■ Target Market:

Consumer & Industrial appliances, Photovoltaic Generation, Office Equipment, Refrigeration air conditioning apparatus, and Avionics

■ PCR-MA Series Lineup

Model	Output voltage range		Rated Output Power
	AC	DC	
PCR500MA	1~310Vrms	± 1.4~± 380V	500VA
PCR1000MA			1000VA
PCR2000MA			2000VA
PCR4000MA			4000VA

■ Note

The existing PCR-M Series will be discontinued of the production based on this release.
